Q4 Murrin - Branch Q4 Update No.3.11-9-11.docx

FYI - added three items:

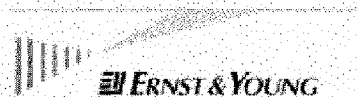

Autonomy hardware: We completed their review of the DT workpapers and noted there was approximately \$100M of hardware revenue and some of it was sold at a loss but there was a positive margin reported in revenue and then the loss put in sales and marketing. I am going to talk to Meeta early this afternoon to understand how this was addressed.

ISS loss deals: Just want to talk on those in general.

FY12 HPFS/ES segment reporting: Understand on that there will be a change in how HPFS/ES deal with inter-company leases. Want to talk about where EFR is with their review of the change, etc.

Thanks,

Brian
